

3/4 outdoor learning

Team work Gracie and Irissa

Don't get Zapped!

We had to get over the imaginary electric fence by helping each other and we had to hold hands while doing it.

Now we were using loose parts to get over the imaginary electric fence .

Water wheel

We had to work in teams of 4 to make a water wheel and if it didn't work we had to be resilient.

We had materials to use which were paper plates, paper cups, sticks and tape .

Gardening

We were helping the school by taking out all the weeds and planting some flowers near the hill and we also were making the flower bed nice and tidy for the new plants to grow.

Gardening

We were planting bulbs to help the nature and the animals.

We were also making the area near Skylarks beautiful to attract the pollinators.

Team work

We were making a circle to fit all of 3\4 I in the circle and seeing how small the circle could get while we were in it . Every time it got smaller and smaller.

Willow lantern

First we had to work together to make a base for the lantern.

Secondly, we had to wrap some tissue paper around the base so it looked like a colourful rocket.

listening

We were getting rocks and trying to listen to each other to try and make the same pictures.

We couldn't peek.

We had two goes to try and make the same pictures.

Paint

We had so much fun mashing charcoal and oil together so it would turn into paint on a piece of paper and we had to make our own paint brushes.

Green paint

We had an extra challenge to try and make a green paint with grass and oil and we did it and it worked.
